

Strategic Consulting Services

While some organizations are content with IT systems that work smoothly, others need technology to do some heavier lifting. If **risk mitigation** is a business imperative, or if **IT innovation** creates a competitive advantage, our executive-level consulting services might be of value.

Learn more about our fractional **Chief Security Officer (CSO)** and **Chief Information Officer (CIO)** services—and what makes them different—below.

CSO SERVICES

Focus

Aligning IT systems and policies with security best practices and meeting regulatory expectations.

Great for...

Organizations subject to formal compliance requirements such as CMMC, HIPAA, FINRA, and FDA.

Sample Outcomes

- Vulnerability Scanning
- Evidence Mapping
- Foundational Security Policies
- Compliance Consultation
- Business Continuity Planning
- Incident Response Testing
- Board-Level Reporting

Engagement

Provided as an ongoing service with monthly and quarterly deliverables. Three tiers available.

CIO SERVICES

Focus

Aligning IT systems and policies with business goals and managing organizational change.

Great for...

Organizations with strategic plans to scale or gain efficiencies beyond what their current systems allow.

Sample Outcomes

- Prioritized Multi-Year Roadmap
- AI Adoption & Implementation
- IT Maturity Assessment
- Network Consolidation
- Policy Creation & Enforcement
- IT Vendor & Staff Management
- Budgeting & Annual Planning

Engagement

Provided as a fixed monthly retainer tailored to your desired outcomes. Discrete projects available.
